

Cognitively Guided Instruction

Fifth Biennial National Conference

July 30 - August 1, 2009
San Diego, California

ABOUT CGI

Cognitively Guided Instruction (CGI) is a teacher professional development program based on over twenty years of research by university professors and elementary school teachers from across the country.

In CGI, teachers explore a framework for how elementary school children learn concepts of number, operations and early algebra. Teachers also learn how to use this framework to inform their mathematics instruction.

DATES AND TIMES

July 30, 2009, 6:30 p.m. – 9:30 p.m.
Opening Keynote and Reception

July 31, 2009, 8:30 a.m. – 5:00 p.m.
